**Lucerne. We hope that you will join us! **The early bird deadline ends on January 15<sup>th</sup>.****

**Please share with anyone who may be interested.**

**What are some ways in which we can more deeply explore our individual and social identities? How do our intersectional social identities that span gender, race, class, age, ability, and sexuality influence our personal identities that we wish to create? Can drama therapy help us explore multiple identities in our journey to find greater creativity and freedom in redefining ourselves?**

**This year's abroad program explores theories and themes of intersectionality and identity from a narrative vantage point. Come to a very hands on workshop framed in identities**

and intersectionality to explore ways of integrating drama therapy and the creative arts to redefine and expand roles and create a landscape of future possibilities. Through expanding stories and identities, participants will honor their unique and diverse histories.

The program will be led by Pam Dunne Ph.D., RDT-BCT, the Director of the Drama Therapy Institute of Los Angeles. She is a recipient of the 2016 Gertrud Schattner Award for recognition of distinguished contribution to the field of drama therapy in education, publication, practice, and service.
